

- Load Capacity 500kg (1,102 lbs)
- Volume Capacity 640 liters (39,045 cubic inches)
- Tare Weight 25.5kg (54 lbs)
- Maximum Stack weight with riser/columns 5,000 kg (11,023 lbs)
- Molding Process Injection molding
- Material, polypropylene sustainable resin
- Food grade regulated polypropylene
- Ventilation Slots Customizable, from fully vented to completely solid
- Fork Lift Entry, 4-Way with 2 straps, short and long foot or pad foot option
- External Dimensions
1,200 mm (L) x 1,000 mm (W) x 790 mm (H) / 47.24" (L) x 39.37" (W) x 31.1" (H)
- Options Color options, stickers, solid injection lid, configurable label area
- Internal Dimensions
Length: 1,131.4 mm/44.54" Width: 950.8 mm/37.43"

The YOYOBIN has been designed to improve multiple applications for harvest cold storage, food processing local and international transportation, with a load capacity 500 kg. The multi dimensional YOYOBIN has light weight columns with improved compression and impact strength and can be easily put together as a one time assembled bin or disassembled to reduce shipping costs. The quick foot release version reduces the time to disassemble the bin. The YOYOBIN also can be used with out fork straps and columns for applications that need to stack bins only three high.

YOYOBIN Features

- Multi dimensional Bin, it can be converted easily for different applications
- Vented and solid versions
- Anti-Hydraulic compression and shape
- Universal interlock
- Softer walls with all rounded edges, and less sharp angles; better than any traditional plastic bin
- Universal riser/column, no left or right
- Multiple strap configurations
- Straps between layers riser/columns in top bin that is nested
- Boxed nest section, stronger stack strength, easier to unstack nested bins
- Tapered walls prevents walls from banging against each other "Bruise Buffer Zone"
- Smooth soft surfaces to protect fruit
- Increased ventilation to cool the fruits and vegetables faster
- Durable food grade approved plastic
- New column design absorbs and recoils any impact, instead of resisting impact and breaking
